

#### \_ Sheet "Appendix6a"

This sheet contains appendix 6 from [1].

#### \_ Sheet "AnageA"

This sheet is an exctraction of the Anage database. This can be obtained at the following address:

<https://genomics.senescence.info/species/index.html>

#### \_ Sheet "AnageB"

Not used.

#### \_ Sheet "AnageC"

This sheet contains entries of sheet "AnageA" which satisfy two criteria:

Field "Kingdom" = "Animalia"

Field "Longevity" is non void

This filtering is done by `macro Anagefilter()`.

#### \_ Sheet "MergedDB"

This sheet contains the database obtained by merging Appendix6a and AnageC performed by `macro Bapp6filter()` (details are in the paper).

#### \_ Sheet "Statrnd"

This sheet contains the data series used for the randomisation test, calculated by `macro Drandomisation()`.

#### \_ Sheet "Statcharts"

This sheet contains the charts reported in the paper.
